

## PRINCIPAL's REPORT

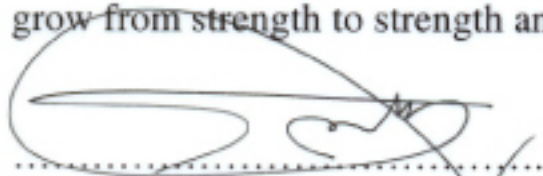

It is once again a sheer pleasure to pen these few line to you. Mere words cannot express how I feel or describe our gratitude towards you, your wife, your family and your concern.

Your financial contribution towards our school is phenomenal. You have afforded quality education to take place. Instead of sitting with a multi-grade class, you have allowed each child the opportunity to sit with his / her peers and be taught by their own Educator. Allow me to congratulate and inform you, that this venture has paid off as only 2 learners in Grade 3 and 1 in Grade 5 were retained by the Western Cape Education Department (i.e. to repeat the year in the same Grade)

This kind of opportunity is PRICELESS. We are forever grateful to you and though we cannot make up, by reciprocating, we can only but pray for blessing from above. Your input is never in vain. One day my learners would look back and remember the invaluable input you have made in their lives.

Personally I would like to THANK you for taking loads of stresses off my back and helping to ease the load. You will never realise what a huge role you've play in this regard. You are an icon that will always linger in my memory.

W. D. Hendricks Primary are proud to be associated with Col - Timbers. We will continuously strive to make you feel good that you have chosen our school to associate with. May your Company grow from strength to strength and may 2008 be a bumper year for you.

Graham A Swartz (Principal)  
W. D. Hendricks Primary School
